

Halvårlig kontingentopkrævning

Semi-annual membership fee collection

Motivation

Vi ønsker størst muligt medlemstal ved indrapportering (af hensyn til tildeling af kommunale baner), og opdeling kunne få flere til at betale for i det mindste en del af året. Det ville også give større kontingentindtægter.

We want to report as large membership numbers as possible (in order to get more/better courts from the municipality), and collecting in smaller and more frequent installments could raise the reported membership number. As well as boost the amount from membership fee collection.

Mulige udfordringer

Potential problems

Q: Mere indviklet bogføring/regnskab?

Q: More complicated bookkeeping/accounting?

A: Ja, men marginalt.

A: Yes, but only marginally.
