

Forslag 1: Muliggør kontingentbetaling via holdsport

Fordele:

- Kontingentopkrævning lettes.
- Udsendelse af rykkere kan ske automatisk og kræver ikke adskillige timers manuelt arbejde.
- Medlemmerne kan betale med MobilePay/kreditkort/dankort (det koster 5 kr), eller de kan fortsætte med at betale via bankoverførsel. I sidste tilfælde skal kasserer registrere indbetalingen på medlemmet.
- Kasserer/formand behøver ikke længere holde øje med, hvem der har betalt og hvem der er blevet opkrævet – det vil fremgå i holdsport.
- Medlemsindberetning kan ske automatisk og kræver ikke adskillige timers manuelt arbejde.

I holdsport kan man indstille, at transaktionsgebyret (som holdsport deler med fx MobilePay) betales af medlemmet. Det bør vi gøre.

Forslag 2: Kontingentperioden er et halvt år

Hermed kan vi rette op på nogle u hensigtsmæssigheder:

- Helårskontingent opkræves "bagud" i april/maj, så vi kan gå glip af kontingent for folk, som forlader klubben før 1. maj
- Det er svært at argumentere for et helt års kontingent overfor "midlertidige" (kortvarige) medlemmer

Ulempen er selvfølgelig, at der bliver flere årlige kontingentopkrævninger og flere kontingentindbetalinger at bogføre. Sidstnævnte ser dog ikke skræmmende ud. Vi kan stadig holde muligheden for betaling af et helt års kontingent åben.

Proposal 1: Optional membership fee payment in holdsport

Advantages:

- Membership fee collection will be easier.
- Membership fee reminders could be sent automatically and would no longer require hours of work.
- Members can pay using MobilePay/dankort/credit cards (a 5 kr transaction fee will apply), or they can continue paying by bank transfer. The cashier would have to register payments received by bank transfers manually in holdsport.
- Cashier/chairman would no longer need to keep tabs on who paid and who received a fee collection.
- Membership reporting could be made automatically and would no longer require hours of work.

In holdsport, you can set the transaction fee (shared between holdsport and e.g. MobilePay) to be paid by the member. We should do that.

Proposal 2: Membership fee period is half a year

This proposal addresses the following issues:

- The full year membership fee is charged in arrears in April/May so we may miss payments from people leaving the club before 1 May
- Collecting a full years membership fee for "temporary" (short term) members is a tough sell

We would see some disadvantages: Several yearly membership fee collections and more payments to deal with in the bookkeeping. However, those do not look frightening. We could maintain the possibility of paying for a full year.
